

## FIRMWARE UPDATE RELEASE DETAILS

# i550

DIVE COMPUTER

to version 1E

(from any previous version)

### EXPLANATION

In response to input received from staff and users of the i550, Aqua Lung has corrected or modified the following items to improve the i550's operation:

- Corrected issues of time drift within the Time Of Day function. Note: The decompression calculations were not effected by this issue.

### UPDATE PROCESS

You can update your i550 firmware (operating software) to newly released revision 1E by following the How to Update Firmware to a Dive Computer instructions in the DiverLog software. There is no need to return the unit to Aqua Lung.

***DiverLog is available on the <http://www.ediverlog.com> web site.***
