

MRS III

MOBILE REFILL SYSTEM FOR THE AQUA LUNG SEA (SURVIVAL EGRESS AIR)

- Simple to operate
- Uses two carbon fiber composite 4500 psi cylinders, for minimum weight
- Two pre-set regulated 3000 psi fill lines
- Control panel allows operator to monitor the pressure in the supply cylinders, verify the preset regulated pressure, and control the filling of one or two SEA units.
- Refill from any approved source of grade D Breathing Air up to 4500 psi
- Will top-off 150 or more SEA MK 2.0 from 2800 to 3000 psi.
- Part # 1007-01
