

CSH Combat Swimmer Harness

The Combat Swimmer Harness (CSH) is a harness system specifically designed for the SOF Combat Diver. The CSH integrates, simplifies, and streamlines the wearing of underwater breathing apparatus (UBA), divers weights and mission specific gear.

CSH Features:

- Designed for durability, comfort and strength.
 - Distributes the weight of the UBA across the shoulders
 - Fully adjustable sizing
 - Adjustable vertical webbing
 - Adjustable waist
 - Adjustable Y jock strap
- Unique and highly reliable weight release system:
 - Carries up to 20 lb on each side using SureLock® weight pockets
 - Military MOLLE weave design on the outside of the SureLock® weight pouchs
- Multiple Mission Essential Load Carrying Capability
 - Four adjustable D rings on the rear for flexible attachment
- Built in carry/recovery handle
- Dry weight 5 lbs
- Two heavy duty Metal D rings for attaching Buddy lines or tending line
- Attachment points provided to integrate the Atlantis BC (PN 762950) directly onto the CSH with the UBA, providing a one piece unit
