WELCOME TO

AQUA LUNG®

FIRST TO DIVE

Aqua Lung is the name that first introduced the world to Scuba diving more than 60 years ago when Jacques-Yves Cousteau and Emille Gagnan developed the first **"Aqua-Lung."** The excitement and adventurous spirit of that first dive continues today and is reflected in Aqua Lung's dedication to quality and innovation.

Aqua Lung's growth over the last 60 years has continued with the acquisition of several leading companies that share our excitement and innovative spirit. The expertise that these businesses bring to Aqua Lung has allowed us to better serve our customers by offering a wider range of high quality diving equipment. Today, Aqua Lung is the world wide leader in scuba diving equipment and brings you some of the most technically advanced and reliable equipment available.

AQUA LUNG LADY SET

HER RULES

Just because we can dive like men doesn't mean we want to look like them too.

PEARL BCD

- A Diagonal bra distributes the heaviness of the tank and the weights
- The one-way flat E-Valves reduce drag and keep the BCD streamlined
- SureLock™II weight pockets align themselves into position
- Sleeker, low profile lobes with scalloped lower edges to rise above the hips
- Waistband and shoulder buckles are double adjustable to offer the perfect fit
- Two lobe pockets are secured with zippers and large enough for fish slates etc.

MIKRON LADY

- Compact and light weight, blends comfort with a unique diving experience
- Aqua-Flex hose; provides flexibility, comfort and excellent packability
- First stage is a balanced diaphragm type - very safe and easy to breathe at any depth
- Second stage is pneumatically balanced to provide top performance and convenience
- The reduced size and weight makes the Mikron the ideal choice for young adults
