

The FROGS made by Aqua Lung is a 100% oxygen closed circuit underwater breathing apparatus specifically developed for clandestine use by SOF divers. FROGS is a ruggedly built UBA that is simple to operate and simple to maintain. High risk missions require the best tools available to the war fighter. FROGS is recognized globally as the best shallow water/long duration rig on the market. FROGS will put you on target with the highest degree of safety.

- Uses either granular or ExtendAir® solid CO2 absorbents
- Can be chest or back mounted (back mount requires Dorsal Kit)
- Easy and inexpensive to maintain – very few repair parts
- Excellent water trapping capability (600ml)
- Demand valve adjustment knob to suit breathing comfort
- Low Work of Breathing (WOB)
- Hydrodynamic shape reduces drag and diver fatigue

TECHNICAL SPECIFICATIONS

Dimensions	48 x 30 x 19 cm
Weight (ready to dive)	14.2kg
Buoyancy in water	-.5kg
CO2 absorbent capacity	2.6kg
CO2 canister duration (nominal)	4 hours+
Counterlung capacity	4.5L
Oxygen cylinder capacity	2.1L x 207bar = 434L
Non Magnetic characteristics	STANAG 2897
Acoustic characteristics	STANAG IMP-15

PRODUCT INFORMATION

FROGS	CR495005
FROGS Annual Service Kit	CR495028
FROGS Dorsal Kit (for back mount)	CR495330
Standard Tool Kit	495366
Special Tool Kit	495360
